

CAE offers pilots one of the most advanced and respected training programs in the industry, covering a wide spectrum of business aircraft. For all your courses and through every stage of your pilot career, rely on CAE for consistent and standardized training of the highest caliber.

Our pilot training programs combine innovative methodologies, knowledgeable instructors, and advanced simulation technology. And all training is carried out with computer-based training tools, flight training devices, and level C and D full-flight simulators.

BUSINESS AIRCRAFT TRAINING

TRUE TRAINING AND TECHNOLOGY Our excellent training and technology have earned the confidence of original equipment manufacturers such as Bombardier, Dassault, and Embraer, to name a few. Over the years, several manufacturers have entrusted us with the development of their training programs and with the provision of entitlement training. To ensure that we meet their customer needs and provide a training experience true to the aircraft, we work closely with each to develop and fine-tune specific training programs. Our broad range of aircraft simulators continues to expand within our network. And as we add to these and other partnerships, we will continue to offer outstanding training to an ever-increasing customer base.

SUPERIOR CENTERS Each training center in CAE's global network offers the latest technologies and training methodologies, along with unparalleled service. Our seven dedicated business aviation training centers boast fully integrated state-of-the-art multiscreen CAE Simfinity™ classrooms, full-flight simulators and training devices, modern briefing rooms, and comfortable lounges.

Each center delivers the same high level of instruction, service, courseware, and technology that distinguishes CAE as a global leader in aviation training and services. With a training network that strategically spans five continents, we make it easier and more convenient to train locally, keeping you closer to home.

WHY TRAIN WITH CAE?

- Highest safety standards
- Tailored programs to meet your needs
- Cost-efficient training
- Conveniently located training centers
- Unsurpassed attention and service
- Modern, comfortable facilities
- Curriculum approved by regulatory authorities from around the world – FAA, JAR, EASA, and Transport Canada
