

COURSE OUTLINE

Gulfstream G650

Pilot Recurrent

Elevate your training experience.

CAE delivers the ultimate flight training experience for pilots of business aircraft. With safe operations as the top priority, our training programs utilize experienced instructors and highly advanced simulation technology. All training is carried out using computer-based tools, flight training devices, and a Level D full-flight simulator. But your other needs are also important. That's why we offer convenient and enjoyable locations, unsurpassed service, and tailored programs and schedules that meet your needs.

Gulfstream G650 pilot recurrent training is a [4 or 5-day program](#) and is offered in our [Dubai](#) training facility. The difference between the 4 and 5-day footprint is the addition of a LOFT/SPOT/LOE on the 5th day. To ensure that we meet customer needs and provide a training experience true to the aircraft, we tailor training to your schedule and your operational requirements. So work with the people who work with you. CAE.
